INTERNATIONAL JOURNAL OF

REMOTE SENSING

An official journal of the
Remote Sensing Society

VOLUME 16 1995

Taylor & Francis
Publishers since 1798

Printed in Great Britain by Burgess Science Press
Rankine Road, Basingstoke, Hants RG24 8PR

CONTENTS OF VOLUME 16

NUMBER 1

Cover 1

An assessment of environmental sensitivity to marine pollutions: solutions with remote sensing and Geographical Information Systems (GIS). **J. Populus, F. Moreau, D. Coquelet and J.-P. Xavier** 3

Automated population and dwelling unit estimation from high-resolution satellite images: a GIS approach. **C. P. Lo** 17

Do remote sensing and GIS have a practical applicability in developing countries? (including some Sri Lankan experiences). **L. Kithsir Perera and Ryutaro Tateishi** 35

Remote sensing for land-use planning. **K. M. Lakshmana Rao** 53

Approach to forestry inventory and mapping by means of multi-spectral airborne data. **X. Baulies and X. Pons** 61

Reflectance calibration of thematic mapper data for forest change detection. **H. Olsson** 81

Estimation of ground cover composition per pixel after matching image and ground data with subpixel accuracy. **E. J. Van Kootwijk, H. Van Der Voet and J. J. M. Berdowski** 97

Bi-directional reflectance factor of 14 soil classes from Brazil. **M. M. Valeriano, J. C. N. Epiphanio, A. R. Formaggio and J. B. Oliveira** ... 113

1:250 000 Land-use map of Catalonia (32 000 km^2) using multi-temporal Landsat-TM data. **O. Viñas and X. Baulies** 129

The effects of higher-order resampling on AVHRR data. **B. Khan, L. W. B. Hayes and A. P. Cracknell** 147

Book reviews 165

Remote Sensing Letters

Chlorophyll distribution in Lake Kinneret determined from Landsat Thematic Mapper data. **M. Mayo, A. Gitelson, Y. Z. Yacobi and Z. Ben-Avraham** 175

Red-edge response to forest leaf area index. **F. M. Danson and S. E. Plummer** 183

Non-zero saturation of AVHRR thermal channels over high temperature targets: evidence from volcano data and a possible explanation. **A. J. L. Harris, D. A. Rothery, R. W. Carlton, S. Langaas and H. Mannstein** ... 189

NUMBER 2

Cover. A cyclone system in the Bay of Bengal. **B. M. Rao, C. M. Kishtwal, P. K. Pal and M. S. Narayanan** 197

A microwave technique to improve the measurement of directional ocean wave spectra. **D. L. Schuler and J. S. Lee** 199

Evaluation of calibration methods for a helicopter-borne microwave scatterometer. **M. Bénallègue, O. Taconet, D. Vidal-Madjar, F. Baudin, P. Lancelin and G. Laurent** 217

Sea surface effects on the sea surface temperature estimation by remote sensing. **R. Yokoyama, S. Tanba and T. Souma** 227

Geostrophic surface currents as derived from satellite SST images and measured by a land-based HF radar. **H.-H. Essen** 239

Landsat reflectivities versus Secchi disc depths. **P. J. Mulhearn** 257

Bi-directional reflectance sampling by ATSR-2: a combined orbit and scan . model. **C. Godsalve** 269

Using prior knowledge in artificial neural network classification with a minimal training set. **G. M. Foody** 301

A fast maximum likelihood classifier. **N. B. Venkateswarlu and R. P. Singh** 313

Distortion correction of NOAA image by statistical method. **T. Yoshida and S. Omatu** 321

Field data collection for remote sensing analysis: SPOT data, Rondonia, Brazil. **J. B. Campbell and J. O. Browder** 333

Remote Sensing Letters

ERS-1 surface wind observations over a cyclone system in the Bay of Bengal during November 1992. **B. M. Rao, C. M. Kishtwal, P. K. Pal and M. S. Narayanan** 351

NOAA-11 AVHRR/2—Thermal channel calibration update. **M. J. Wooster, T. S. Richards and K. Kidwell** 359

Ranking of lakes: logistic models. **B. S. Daya Sagar and B. S. Prakasa Rao** 365

Spectral reflectance of biogenic crust developed on desert dune sand along the Israel-Egypt border. **A. Karnieli and H. Tsoar** 369

Temperature-dependent ozone transmittance in mono-layer atmospheric model. **M. Cervino, I. Canossi, R. Guzzi and F. Torricella** 375

Survey of geographical information system and image processing software. **D. VanderZee and A. Singh** 383

Preliminary analysis of ERS-1 wind scatterometer data over land surfaces. **E. Mougin, A. Lopes, P. L. Frison and C. Proisy** 391

Tracking of Antarctic tabular icebergs using passive microwave radiometry. **H. A. Phillips and S. W. Laxon** 399

NUMBER 3

Cover. Mt. Pinatubo Ash Plume. **G. Stephens** 407

Delimiting the building heights in a city from the shadow in a panchromatic SPOT-image—Part 1. Test of forty-two buildings. **F. Cheng and K.-H. Thiel** 409

Operational bi-angle approach to retrieve the Earth surface albedo from AVHRR data in the visible band. **Y. Xue and A. P. Cracknell** 417

Advanced thermal inertia modelling. **Y. Xue and A. P. Cracknell** 431

Using remote sensing for monitoring of autumn tillage in Norway. **R. Leek and R. Solberg** 447

Spectro-meteorological modelling of sorghum yield using single date IRS LISS-I and rainfall distribution data. **M. B. Potdar, Sudha Ravindranath, N. Ravi, R. R. Navalgund and R. C. Dubey** 467

An assessment of canopy chemistry with AVIRIS—a case study in the Landes Forest, South-west France. **J. P. Gastellu-Etchegorry, F. Zagolski, E. Mougin, G. Marty and G. Giordano** 487

The effects of changes in forest biomass on radar backscatter from tree canopies. **Y. Wang, F. W. Davis, J. M. Melack, E. S. Kasischke and N. L. Christensen, Jr.** 503

A case study on the determination of fog optical depth and liquid water path using AVHRR data and relations to fog liquid water content and horizontal visibility. **J. Bendix** 515

Spacecraft attitude variations of NOAA-11 inferred from AVHRR imagery. **D. Baldwin and W. J. Emery** 531

Technical Note. Kepler's equations in 'C'. **P. S. Crawford** 549

Book reviews 559

Remote Sensing Letters

Lacunarity as a texture measure for SAR imagery. **G. M. Henebry and H. J. H. Kux** 565

Combining vegetation indices and surface temperature for land-cover mapping at broad spatial scales. **E. F. Lambin and D. Ehrlich** 573

Conservative bias in classification accuracy assessment due to pixel-by-pixel comparison of classified images with reference grids. **D. L. Verbyla and T. O. Hammond** 581

Thematic map accuracy assessment from the perspective of finite population sampling. **S. V. Stehman** 589

NUMBER 4

Cover. Land Cover on the Western Slopes of the Central Oregon Cascade Range. **W. B. Cohen, T. A. Spies, Frederick J. Swanson and D. O. Wallin** 595

Size estimates of the factors controlling sea surface temperature with AVHRR data. **W. G. Huang and I. S. Robinson** 597

SST estimation within Syowa's station mask using MOS-1's visible and thermal infrared radiometers. **W. Schneider, F. Nishio, T. Yamanouchi, O. Watanabe and H. Masuko** 613

Technical note. Seafloor characterization through side scan sonar image processing. **P. Siljeström, A. Moreno and J. Rey** 625

Irrigated crops monitoring through seasons using digital change detection analysis of IRS-LISS 2 data. **P. Manavalan, K. Kesavasamy and S. Adiga** 633

Dielectric properties of salt-affected soils. **K. Sreenivas, L. Venkataratnam and P. V. Narasimha Rao** 641

Utility of AVHRR data for land degradation assessment: a case study. **G. N. Bastin, G. Pickup and G. Pearce** 651

Sensitivity of ISODATA to changes in sampling procedures and processing parameters when applied to AVHRR time-series NDVI data. **D. Vanderzee and D. Ehrlich** 673

Estimating soil moisture from 6·6 GHz dual polarization, and/or satellite derived vegetation index. **N. U. Ahmed** 687

Seasonal variations in the spectral reflectance of deciduous tree canopies. **G. A. Blackburn** 709

Estimating the age and structure of forests in a multi-ownership landscape of western Oregon, U.S.A.. **W. B. Cohen, T. A. Spies and M. Fiorella** ... 721

An evaluation of fuzzy and texture-based classification approaches for mapping regenerating tropical forest classes from Landsat-TM data. **G. Palubinskas, R. M. Lucas, G. M. Foody and P. J. Curran** 747

Book review 761

Bulletin 763

Remote Sensing Letters

Geometric correction and radiometric normalisation of NOAA AVHRR data for fisheries applications. **A. Narayana, H. U. Solanki, B. G. Krishna and A. Narain** 765

A simple, accurate method to compute brightness temperature and/or radiance for the thermal infrared channels of the Advanced Very High Resolution Radiometer (AVHRR). **J. T. Sullivan** 773

Contributions of principal components to discrimination of classes of land cover in multi-spectral imagery. **R. M. Lark** 779

NUMBER 5

Cover. Iceland–Faeroes front. **E. Nacini** 789

Indian remote sensing spacecraft—1C/1D. **S. Kalyanaraman, R. K. Rajangam and R. Rattan** 791

Retrieval of surface parameters using dynamic learning neural network. **K. S. Chen, W. L. Kao and Y. C. Tzeng** 801

Regional remapping of the basement complex outcrops, using factor analysis to spectrometric data, of the Gabal Eteiqa, Eastern Desert, Egypt. **H. A. Hussein, S. I. Rabie and S. H. Abdel Nabi** 811

Change detection of Rosetta promontory over the last forty years. **M. El-Raey, S. M. Nasr, M. M. El-Hattab and O. E. Frihy** 825

Discrete Cosine Transform data compression applied to satellite sensor images. **G. Hong, G. Hall and T. J. Terrell** 835

Laboratory measurements of radar backscatter from bare and snow-covered saline ice sheets. **S. G. Beaven, G. L. Lockhart, S. P. Gogineni, A. R. Hosseinmostafa, K. Jezek, A. J. Gow, D. K. Perovich, A. K. Fung and S. Tjuatja** 851

An adaptive filter for speckle suppression in synthetic aperture radar images. **P. V. Narasimha Rao, M. S. R. R. Vidyadhar, T. Ch. Malleswara Rao and L. Venkataratnam** 877

An assessment of veering wind effects on scatterometry from the sea surface. **L. F. Bliven, V. Billat, P. W. Sobieski, A. C. Guissard, H. Branger and J.-P. Giovanangeli** 891

Analysis of ERS-1 Synthetic Aperture Radar data from Nordaustlandet, Svalbard. **W. G. Rees, J. A. Dowdeswell and A. D. Diament** 905

On the focusing of the ocean swell images produced by a regular and by an interferometric SAR. **L. Shemer** 925

Technical Note. Simulation of MEIS-II data on 5S code to quantify algal concentration in an intertidal area. **M. Habbane, J.-M. Dubois, M. I. El-Sabh and G. B. Bénié** 949

A single probe fibre optic fluorosensor for marine and freshwater measurements of phytoplankton populations. **D. McStay, R. Milne, G. G. Wright and J. Dunn** 957

Remote Sensing Letters

Monitoring pasture productivity in New Zealand—an investigation using NOAA-11 AVHRR data and dairy farm milk fat production. **L. J. Brown and P. R. Stephens** 967

Assessment of regional soil moisture conditions by coupling satellite sensor data with a soil-plant system heat and moisture balance model. **S. K. Saha** 973

Airborne radiometry and a sheep grazing experiment on dune grassland. **A. G. Thomson** 981

NUMBER 6

Cover. Coal burning power plants and forest damage in the Czech Republic. **J. Ardö** 989

Examples of high resolution visible to near-infrared reflectance spectra and a standardized collection for remote sensing studies. **J. C. Price** 993

Volcano detection and monitoring using AVHRR data: the Krafla eruption, 1984. **A. J. L. Harris, R. A. Vaughan and D. A. Rothery** 1001

Mapping of jasperoid in the Cedar Mountains, Utah, U.S.A., using imaging spectrometer data. **R. J. Murphy** 1021

Digital classification of the contact metamorphic aureole along the Los Pedroches batholith, south-central Spain, using Landsat Thematic Mapper data. **F. van der Meer, P. M. van Dijk and A. B. Westerhof** 1043

The use of enhanced Landsat-TM image in the characterization of uraniferous granitic rocks in the Central Eastern Desert of Egypt. **M. L. El Rakaiby** 1063

Acreage estimation of wheat and barley fields in the province of Adana, Turkey. **V. Peştemalci, U. Dinç, İ Yeğingil, M. Kandirmaz, M. A. Çullu, N. Öztürk and E. Aksoy** 1075

The application of satellite remote sensing for soil studies in upland areas of Southern Italy. **A. P. Leone, G. G. Wright and C. Corves** 1087

Scattering by Lambertian-leaves canopy: dependence on leaf-area projections. **J. Otterman, T. Brakke and A. Marshak.** 1107

Mapping the dense humid forest of Cameroon and Zaire using AVHRR satellite data. **N. Laporte, C. Justice and J. Kendall** 1127

Narrow-band to broad-band conversion for Meteosat-visible channel and broad-band albedo using both AVHRR-1 and -2 channels. **J. A. Valiente, M. Nunez, E. Lopez-Baeza and J. F. Moreno** 1147

Technical Note. Simulation of radiances for future AVHRR platforms with the AVIRIS spectral radiometer. **M. A. Wetzel** 1167

NUMBER 7

Cover. Bird's eye view of Mount Sakurajima from JERS-1/OPS. **S. Tanaka and T. Sugimura** 1179

Statistical models for polarimetric data: consequences, testing and validity. **S. Quegan and I. Rhodes** 1183

Accuracy of airborne laser altimetry over the Greenland ice sheet. **W. B. Krabill, R. H. Thomas, C. F. Martin, R. N. Swift and E. B. Frederick** ... 1211

Comparison of brightness temperatures from SSMI instruments on the DMSP F8 and F11 satellites for Antarctica and the Greenland ice sheet. **W. Abdalati, K. Steffen, C. Otto and K. C. Jezek** 1223

A model of volume attenuation and backscattering by foliage at L- and P-bands. **Y. Dong, J. A. Richards and J. Cashman** 1231

Synthetic aperture radar observations of interaction of ocean swell and Semidi Islands in the Gulf of Alaska. **C. Y. Peng and A. K. Liu** 1249

Spectral characterization and regression-based classification of forest damage in Norway spruce stands in the Czech Republic using Landsat Thematic Mapper data. **N. J. Lambert, J. Ardö, B. N. Rock and J. E. Vogelmann** 1261

The use of NOAA-AVHRR NDVI data to assess herbage production in the arid rangelands of Central Australia. **T. J. Hobbs** 1289

NOAA-AVHRR NDVI decomposition and subpixel classification using linear mixing in the Argentinean Pampa. **H. Kerdiles and M. O. Grondona** ... 1303

Monitoring the 1988 severe drought in Indiana, U.S.A. using AVHRR data. **D. F. Lozano-Garcia, R. N. Fernández, K. P. Gallo and C. J. Johannsen** 1327

Characteristic spectral reflectance of a semi-arid environment **R. T. Pinker and A. Karnieli** 1341

Book review 1365

NUMBER 8

Cover. Coral reef distribution in south-west Tobago. **R. Laydoo and J. K. Griffith** 1367

Sea surface temperature retrieval in tropical area with Meteosat: the case of the Senegalese coastal upwelling. **H. Demarcq and J. Citeau** 1371

Optimal tiling of heterogeneous images. **M. Kertész, F. Csillag and Á. Kummert** 1397

Technical Note. Co-occurrence matrices for small region texture measurement and comparison. **G. E. Carlson and W. J. Ebel** 1417

A reappraisal of unsupervised classification, I: correspondence between spectral and conceptual classes. **R. M. Lark** 1425

A reappraisal of unsupervised classification, II: optimal adjustment of the map legend and a neighbourhood approach for mapping legend units. **R. M. Lark** 1445

Components of accuracy of maps with special reference to discriminant analysis on remote sensor data. **R. M. Lark** 1461

Evaluation of a combined modelling – remote sensing method for estimating net radiation in a wetland: a case study in the Nebraska Sand Hills, U.S.A. **D. G. Goodin** 1481

Applications of mathematical morphology in surface water body studies. **B. S. Daya Sagar, G. Gandhi and B. S. Prakasa Rao** 1495

Depth resolved detection of oceanographic variables in the St. Lawrence estuary using a laser fluorosensor: instrument characteristics and first results. **B. Nieke, A. Condal, J.-F. Berthon, C. Bellehumeur, L. Legendre, S. Morin, J.-C. Therriault, C. Giroud and R. Dick** 1503

Elaboration d'une carte d'occupation du sol du bassin versant de la Leysse à partir d'images HRV de SPOT. **P. Landru, A. Oumedjbeur et E. Clement** 1523

Comparison of the effectiveness of the principal components transform for enhancing contrast between closely similar colours with a method based on system exposure response differences. **J. R. Palmer and R. E. Jacobson** ... 1541

The vertical resolution of satellite borne radiometers for atmospheric measurements. **G. E. Peckham** 1557

Errata 1571

NUMBER 9

Cover. Bush fire devastation on the Australian continent. **J. Adams** ... 1573

Monitoring burnt areas by principal components analysis of multi-temporal TM data. **P. Siljeström Ribed and A. Moreno López** 1577

Colour composite comparisons for agricultural assessments. **B. Haack and S. Jampoler** 1589

A statistical approach for ground cover modelling according to the spectral brightness. **H. Erol and F. Akdeniz** 1599

Quantitative approach in the spectral reflectance-lithostratigraphy of the Wind River and southern Bighorn basins, Wyoming. **L. S. Galvão and Í. Vitorello** 1617

Fault tectonics of the Shillong plateau and adjoining regions, north-east India using remote sensing data. **J. D. Das, A. K. Saraf and A. K. Jain**... ... 1633

Procedures for correcting high resolution airborne video imagery. **G. Pickup, V. H Chewings and G. Pearce**. 1647

Methods of remote sensing in geothermal regions: the geodynamic setting of the Taupo Volcanic Zone (North Island, New Zealand). **J.-P. Deroin, G. R. Cochrane, M. A. Mongillo and P. R. L. Browne** 1663

Gyres off the Somali coast and western boundary currents in the Bay of Bengal during the south-west monsoon. **S. Ratna Reddy, A. K. Easton, S. R. Clarke, A. Narendra Nath and M. V. Rao**.. 1679

A comparison of wind profiler and sounding observations during a frontal event. **V. Kotroni, K. Lagouvardos and M. Petitdidier** 1685

A simple cloud masking approach using NOAA AVHRR daytime data for tropical areas. **G. B. França and A. P. Cracknell** 1697

The effect of training set size and composition on artificial neural network classification. **G. M. Foody, M. B. McCulloch and W. B. Yates** 1707

Book review 1725

Remote Sensing Letters

On the relationship between the Chahine–Twomey and Maximum Entropy methods. **I. H. Woodhouse and G. E. Peckham** 1727

Decoupling effects of the canopy and foliar biochemicals in AVIRIS spectra. **J. A. Kupiec and P. J. Curran** 1731

Errata 1741

NUMBER 10

1st International Symposium on Ozone Depletion and Solar Ultraviolet Radiation: Impacts on Human Health—A Case Study of the Mediterranean Region

Cover. The National and Kapodistrian University of Athens, Laboratory of Meteorology. 1743

Editorial. **C. A. Varotsos** 1745

Phototherapy. **C. Antoniou and A. Katsambas** 1747

The present status of the total ozone depletion over Greece and Scotland: a comparison between Mediterranean and more northerly latitudes. **A. P. Cracknell and C. A. Varotsos** 1751

Recent trends of the total column ozone: implications for the Mediterranean region. **S. Chandra and C. A. Varotsos** 1765

On the correction of the total ozone content over Athens, Greece as deduced from satellite observations. **C. A. Varotsos** 1771

Ozone dynamics over Greece as derived from satellite and *in situ* measurements. **C. A. Varotsos and K. Ya. Kondratyev** 1777

On the intercomparison of satellite and ground-based observations of prevailing cloud types over Athens. **N. K. Sakellariou, C. A. Varotsos and S. P. Lykoudis** 1799

On the SO_2 and NO_2 interferences in total ozone measurements made with the Dobson spectrophotometer No. 118 in Athens. **C. A. Varotsos, A. P. Cracknell, N. K. Sakellariou, S. Katsikis, G. Chronopoulos and P. Kassomenos** 1805

Measurements of the spectral components of direct normal solar radiation over Athens. **N. Sakellariou, D. Asimakopoulos, G. Eutaxias, A. Kalamatianou, C. A. Varotsos and S. Katsikis** 1815

On the statistical analysis of the ozone depletion over Greece. **C. A. Varotsos, A. P. Cracknell, N. K. Sakellariou and S. P. Lykoudis** 1829

Possible impact of polar stratospheric processes on mid-latitude vertical ozone distributions. **H. Gernandt, U. Goersdorf, H. Claude and C. A. Varotsos** 1839

Atmospheric ozone variability in the context of global change **K. Ya. Kondratyev and C. A. Varotsos** 1851

Further evidence of the role of air pollution on solar ultraviolet radiation reaching the ground. **C. A. Varotsos, G. J. Chronopoulos, S. Katsikis and N. K. Sakellariou** 1883

Volcanic eruptions and global ozone dynamics. **K. Ya. Kondratyev and C. A. Varotsos** 1887

An analysis of the distribution of nitrogen dioxide in the south-eastern Mediterranean for the period 1985–1989. **A. Retalis, C. Cartalis and C. A. Varotsos** 1897

NUMBER 11

Cover 1905

Review Article. The methods for inferring surface fluxes from satellite data, and their use for atmosphere model validation. **L. Eymard and O. Taconet** 1907

Inter-satellite calibration linkages for the visible and near-infrared channels of the Advanced Very High Resolution Radiometer on the NOAA-7, -9, and -11 spacecraft. **C. R. Nagaraja Rao and J. Chen** 1931

Global radionavigation and location systems for tracking marine mammals. **J. Bishop and J. D. Last** 1943

Geocoding of fast-delivery ERS-1 SAR image mode product using DEM data. **H. Johnsen, L. Lauknes and T. Guneriussen** 1957

Fine co-location of pre-corrected ATSR images. **D. Shin and J. K. Pollard** 1969

Satellite remote sensing of deforestation in the Sungai Buloh Forest Reserve, Peninsular Malaysia. **Kamaruzaman Jusoff and Mohd Rasol Abdul Manaf** 1981

Estimating forest stand structure from high resolution imagery using the directional variogram. **B. A. St-Onge and F. Cavayas** 1999

Technical Note. Estimation of large scale monthly rainfall over Indian region using minimal INSAT-VHRR data. **S. M. Bhandari and A. K. Varma** ... 2023

Some active and passive microwave signatures of Antarctic sea ice from mid-winter to spring 1991. **F. Gohin** 2031

Synthesis of passive microwave and radar altimeter data for estimating accumulation rates of dry polar snow. **C. H. Davis** 2055

Book review 2069

Remote Sensing Letters

Potential of ATSR-1 data for detection of clearings within dense humid tropical forest. **H. D. Eva, G. D'Souza and J. P. Malingreau** 2071

A line-preserving post-processing technique for maximum likelihood classification of SAR images. **D. Wang, D.-C. He and G. B. Bénié** ... 2081

The potential of the NASA GAC Pathfinder product for the creation of global thematic data sets: the case of biomass burning patterns. **A. Belward, A. Hollifield and M. James** 2089

Comment on 'Effect of surface wind speed and sensor view zenith angle dependence of emissivity on SST retrieval from thermal infrared data: ATSR'. **P. D. Watts, A. M. Zavody, C. T. Mutlow, I. J. Barton, P. J. Minnett and D. T. Llewellyn-Jones** 2099

NUMBER 12

Cover. Surface thermal anomalies associated with underground fires in Jharia coal mines, India. **A. Prakash, A. K. Saraf, R. P. Gupta, M. Dutta and R. M. Sundaram** 2105

Landsat-TM data for estimating ground temperature and depth of subsurface coal fire in the Jharia coalfield, India. **A. K. Saraf, A. Prakash, S. Sengupta and R. P. Gupta** 2111

Spectral behaviour of salt-affected soils. **B. R. M. Rao, T. Ravi Sankar, R. S. Dwivedi, S. S. Thammappa, L. Venkataratnam, R. C. Sharma and S. N. Das** 2125

Seasonal vegetation cover changes as indicators of soil types along a climatological gradient: a mutual study of environmental patterns and controls using remote sensing. **M. Shoshany, H. Lavee and P. Kutiel** ... 2137

The effects of surficial vegetation cover on mineral absorption feature parameters. **R. J. Murphy** 2153

Exploring a V-I-S (vegetation-impervious surface-soil) model for urban ecosystem analysis through remote sensing: comparative anatomy for cities. **M. K. Ridd** 2165

Spatial variability of images and the monitoring of changes in the Normalized Difference Vegetation Index. **J. R. G. Townshend and C. O. Justice** ... 2187

Adaptive least squares method for estimation of partial cloud coverage within a pixel. **K. Arai, Y. Terayama, Y. Ueda and M. Moriyama** 2197

Assimilation of GOES-derived solar insolation into a mesoscale model for studies of cloud shading effects. **R. T. McNider, J. A. Song and S. Q. Kidder** 2207

Illumination and observation geometry for NOAA–AVHRR images. **L. A Frulla, J. A. Milovich and D. A. Gagliardini** 2233

Spectral identification by artificial neural network and genetic algorithm. **C. Clark and A. Cañas** 2255

Linear and correlation analysis for computerized identification of categories in Landsat images. **K. Mahar and M. S. Afifi** 2277

Remote Sensing Letters

Image enhancement using colour information. **I. Andreadis, E. Glavas and Ph. Tsalides** 2285

Evaluation of apparent surface reflectance estimation methodologies. **G. Ferrier** 2291

NUMBER 13

Cover. Saharan dust outbreak. **G. Stephens** 2299

Global land monitoring from AVHRR: potential and limitations. **G. Gutman and A. Ignatov** 2301

Technical Note. Navigation of NOAA APT images. **M. Rafiqul Islam and R. H. B. Exell** 2311

Absolute calibration of AVHRR visible and near-infrared channels using ocean and cloud views. **E. Vermote and Y. J. Kaufman** 2317

Microwave radiometry of the atmosphere: an experiment from a sea-based platform during ERS-1 altimeter calibration. **P. Ciotti, P. Basili, G. D'Auria, F. S. Marzano and N. Pierdicca** 2341

The use of Landsat Thematic Mapper imagery for analysing lithology and structure of Korucu-Duğla area in western Turkey. **S. S. Nalbant and Ö. Alptekin** 2357

Remote sensing and Pleistocene tectonics of Southern Indian peninsula. **S. M. Ramasamy and S. Balaji** 2375

Synergetic use of active and passive remotely-sensed and map data in the delineation of part of Godavari palaeocourse. **R. Nagarajan, R. Vinod Kumar and A. Roy** 2393

Principles of swell measurement by SAR with application to ERS-1 observations off the Mauritanian coast. **P. Forget, P. Broche and F. Cuq** 2403

Environmental factors and the detection of open surface water areas with X-band radar imagery. **F. M. Henderson** 2423

Suspended sediment concentration estimation from multi-spectral video imagery. **A. Roberts, C. Kirman and L. Lesack** 2439

On the interpretation and classification of mesoscale cyclones from satellite infrared imagery. **A. M. Carleton** 2457

Remote Sensing Letters

A qualitative approach to the mapping of post-fire regrowth in Mediterranean vegetation with Landsat TM data. **M. Marchetti, C. Ricotta and F. Volpe** 2487

Monitoring flooding in coastal wetlands by using radar imagery and ground-based measurements. **E. W. Ramsey III** 2495

Estimating the depth of buried hot features from thermal IR remote sensing data: a conceptual approach. **A. Prakash, R. G. S. Sastry, R. P. Gupta and A. K. Saraf** 2503

Announcement. Taylor & Francis Best Letter Award. 2511

NUMBER 14

Cover. Mt. Spurr Ash Plume. **G. Stephens** 2513

Environment contribution to the atmospheric correction for Landsat-MSS images. **J. A. Milovich, L. A. Frulla and D. A. Gagliardini** 2515

Multidate satellite data for study of dynamics of coastal landforms of Uttara Kannada, South India. **H. Honne Gowda, K. Ganesha Raj, A. S. Padmavathy and B. Manikiam** 2539

Reflectance spectra of evaporite minerals (400–2500 nm): applications for remote sensing. **N. A. Drake** 2555

Technical Note. Spectral analysis of satellite data and their assessment by diffractometric analysis. Case of samples from a test zone in the south of Algeria. **A. Belhadj-Aissa, Y. Smara and P. Bildgen** 2573

Detection of land cover classes in agro-ecosystems of northern Egypt by remote sensing. **B. B. Salem, A. El-Cibahy and M. El-Raey** 2581

Role of geological and geomorphological factors in ground water exploration: a study using IRS LISS data. **J. Krishnamurthy and G. Srinivas** 2595

Assessment of the capabilities of multi-temporal ERS-1 SAR data to discriminate between agricultural crops. **C. G. J. Schotten, W. W. L. van Rooy and L. L. F. Janssen** 2619

SAR polarimetric features of agricultural areas. **S. Baronti, F. Del Frate, F. Ferrazzoli, S. Paloscia, P. Pampaloni and G. Schiavon** 2639

ScanSAR processing and simulation for ASAR using ERS-1 raw data. **K. Eldhuset and P A. Våland** 2657

Improved along track resolution of nearly repeated satellite altimeter data. **J. P. Noréus and K. L. Hayling** 2675

Study of seasonal current variability in the Arabian Sea using Geosat altimeter data. **C. Kalyani Devasena, S. P. Subramanian and M. M. Ali** 2691

The contribution of Bragg scattering to scatterometer signatures. **E. M. Poulter, M. J. Smith and J. A. McGregor** 2703

Remote Sensing Letters

A field study of the variability in the suspended sediment concentration–reflectance relationship. **G. Ferrier** 2713

Scatterometry of a drop impact on a salt water surface. **P. W. Sobieski and L. F. Bliven** 2721

Reflectance assessment of mite effects on apple trees. **J. Peñuelas, I. Filella, P. Lloret, F. Muñoz and M. Vilajeliu** 2727

NUMBER 15

Cover. The 1995 flood in The Netherlands monitored from space—a multi-sensor approach. **Y. Wang, B. N. Koopmans and C. Pohl** 2735

Validation of ATSR sea surface temperatures in the Faeroes region. **T. N. Forrester and P. G. Challenor** 2741

Global analysis of the relationships among a vegetation index, precipitation and land surface temperature. **P. A. Schultz and M. S. Halpert** 2755

Discrimination of adelgid-damage on single balsam fir trees with aerial remote sensing data. **S. E. Franklin, W. W. Bowers and G. Ghitter** 2779

Intégration de données multisources: comparaison de méthodes géométriques et radiométriques. **Th. Toutin** 2795

Integration of remotely-sensed raster data with a vector-based geographical information system for land-use change detection. **N. M. Mattikalli** ... 2813

Delimiting the building heights in a city from the shadow on a panchromatic SPOT-image: Part 2: Test of a complete city. **Ph. Hartl and F. Cheng** ... 2829

Improved resolution of Geosat altimetry using dense sampling and polynomial adjusted averaging. **J. P. Noréus** 2843

Height accuracy of one and a half centimetres by GPS rapid static surveying. **J. Wu and S.-G. Lin** 2863

A correlation based cloud-detection algorithm combined with an examination of some split-window assumptions. **C. Sølvsteen** 2875

Inference of the climatic efficiency of clouds from satellite measurements. **F. H. Berger** 2903

Assessing the impact of radiometric noise on IASI performances. **U. Amato, V. Cuomo and C. Serio** 2927

A layer detection and classification algorithm for sodar facsimile records. **J. A. Kalogiros, C. G. Helmis, D. N. Asimakopoulos, P. G. Papageorgas and A. T. Soilemes** 2939

Remote Sensing Letters

Noise estimation in NOAA AVHRR maximum-value composite NDVI images. **L. R. Eklundh** 2955

Effect of thinning cutting on boreal forest reflectance: a comparison of simulations and Landsat TM estimates. **T. Nilson and H. Olsson** ... 2963

NUMBER 16

Cover. Forest Fires, Siberia. **G. Stephens** 2969

Technical Note. Assessing the relation between emissivity and vegetation with AVHRR. **J. R. Givri** 2971

Variability of Landsat Thematic Mapper data in boreal deciduous and mixed-wood stands with conifer understory. **G. S. Ghitter, R. J. Hall and S. E. Franklin** 2989

Land surface classification by neural networks. **M. Schaale and R. Furrer** ... 3003
Review Article. A review and analysis of backpropagation neural networks for classification of remotely-sensed multi-spectral imagery. **J. D. Paola and R. A. Schowengerdt** 3033
Distributions of surface water bodies. **B. S. Daya Sagar, M. Venu and B. S. Prakasa Rao** 3059
Telespectrometrical estimation of water transparency, chlorophyll-*a* and total phosphorus concentration of Lake Peipsi. **T. Kutser, H. Arst, T. Miller, L. Käärmann and A. Milius** 3069
Satellite remote sensing of waste water reservoirs. **C. Braude, N. Ben Yosef and I. Dor** 3087
Atmospheric corrections of AVIRIS images with a procedure based on the inversion of the 5S model. **F. Zagolski and J. P. Gastellu-Etchegorry** ... 3115
A method to test for systematic differences between maps and reality using error matrices. **E. Næsset** 3147
Various approaches to speed up Mahalanobis distance classifier. **N. B. Venkateswarlu and R. P. Singh** 3157
Book reviews 3165
Calendar of events 3173

Remote Sensing Letters

Raw SAR data compression using vector quantization. **J.-M. Moureaux, P. Gauthier, M. Barlaud and P. Bellemain** 3179
Spectral unmixing of Landsat Thematic Mapper data. **F. van der Meer** ... 3189
Satellite-derived land surface climate 'signal' for the Midwest U.S.A.. **A. M. Carleton and M. O'Neal** 3195
Relation of oil palm spectral response to stand age. **J. M. McMorrow** ... 3203
Simulating the relationship between thermal emissivity and the Normalized Difference Vegetation Index. **A. Olioso** 3211
Errata 3217

NUMBER 17

Special issue: Programme for International Polar Oceans Research

Memorial. Dr T. Viehoff. **M. R. Drinkwater** 3221
Preface **P. Gudmandsen and M. R. Drinkwater** 3223
Editorial **M. R. Drinkwater** 3225
Ice and ocean processes in the Tatarskiy Strait, Japan Sea, as revealed by ERS-1 SAR. **S. Martin, M. Wakatsuchi and N. Ono** 3227
Validation of backscatter models for level and deformed sea-ice in ERS-1 SAR images. **A. Carlström and L. M. H. Ulander** 3245
A grid-based algorithm for the extraction of intermediate-scale sea-ice deformation descriptors from SAR ice motion products. **S. Li, Z. Cheng and W. F. Weeks** 3267

Effect of frost flowers, rough saline snow and slush on the ERS-1 SAR backscatter of thin Arctic sea-ice. **L. M. H. Ulander, A. Carlström and J. Askne** 3287

North-East Water polynya: satellite observations summer 1992 and 1993. **P. Gudmandsen, B. B. Thomsen, L. T. Pedersen, H. Scriver and P. J. Minnett** 3307

Remotely-sensed and simulated variability of Arctic sea-ice concentrations in response to atmospheric synoptic systems. **J. A. Maslanik, C. Fowler, J. Heinrichs, R. G. Barry and W. J. Emery** 3325

An examination of the relation between the spring period evolution of the scattering coefficient (σ°) and radiative fluxes over landfast sea-ice. **D. G. Barber, T. N. Papakyriakou, E. F. Ledrew and M. E. Shokr** 3343

C-band backscatter measurements of winter sea-ice in the Weddell Sea, Antarctica. **M. R. Drinkwater, R. Hosseinmostafa and P. Gogineni** ... 3365

Iceberg observations and estimation of submarine ridges in the western Weddell Sea. **T. Viehoff and A. Li** 3391

High resolution observations of Weddell Sea surface currents using ERS-1 SAR sea-ice motion vectors. **J. P. Thomas, J. Turner, T. A. Lachlan-Cope and G. Corcoran** 3409

Demonstration of operational sea-ice monitoring in the Baltic Sea with ERS-1 SAR. **E.-A. Herland and R. Berglund** 3427

Real-time use of ERS-1 SAR imagery for ice service and icebreaking operations in the Baltic Sea **B. Hakansson, M. Moberg and T. Thompson** 3441

Analysis of coastal ice cover using ERS-1 SAR data. **G. Leshkevich, W. Pichel, P. Clemente-Colon, R. Carey and G. Hufford** 3459

NUMBER 18

Cover. Oil spill detection from NOAA-AVHRR imagery. **W. Y. Tseng** ... 3481

Correcting atmospheric masking to retrieve the spectral albedo of land surfaces from satellite measurements. **T. Popp** 3483

Quantitative analysis of convolved Thematic Mapper spectra of soils in the visible near-infrared and shortwave-infrared spectral regions (0·4–2·5 μm) **E. Ben-Dor and A. Banin** 3509

Surface mineral mapping of Makhtesh Ramon Negev, Israel using GER 63 channel scanner data. **E. Ben-Dor and F. A. Kruse** 3529

Microwave inversion of root mean square height from vegetated fields: a dual frequency technique. **N. S. Chauhan** 3555

Temporal stability of some global NDVI products derived from NOAA/AVHRR GVI. **L. Di and D. A. Hastings** 3569

Sensitivity of landscape metrics to pixel size. **J. D. Wickham and K. H. Riitters** 3585

The EOLE Project: a multiwavelength laser remote sensing (LIDAR) system for ozone and aerosol measurements in the troposphere and the lower stratosphere. Part 1: Overview. **A. D. Papayannis** 3595

Frequency dependence of polarization phase difference. **K. S. Rao, Y. S. Rao and J. R. Wang** 3605

SeaWiFS potential for remote sensing of marine *Trichodesmium* at sub-bloom concentration. **S. Tassan** 3619

A new relationship between radar cross-section and ocean surface wind speed using ERS-1 scatterometer and buoy measurements. **C. Rufenach** ... 3629

A critical assessment of the Q–W relation and a parametrization relation for computing latent heat fluxes over the Indian Ocean. **N. Gautam, Sujit Basu, C. M. Dishtawal, R. M. Gairola and P. C. Pandey** 3649

Threshold functions for automated cloud analyses of global meteorological satellite imagery. **K. D. Hutchison and K. R. Hardy** 3665

Remote Sensing Letters

Automated thresholding of active lavas using AVHRR data. **A. J. L. Harris, S. E. J. Swabey and J. Higgins** 3681

Model approximation of angular dependence in AVHRR brightness temperatures over a black surface. **A. M. Ignatov and I. L. Dergileva** ... 3687

A neural network-based method for tracking features from satellite sensor images. **S. Côte and A. R. L. Tatnall** 3695

Index of Authors (with the titles of papers) 3703
